BlinkerSign® Flashing LED Sign
Pedestrian Crossing W11-2

- Installs easily onto any new or existing sign post or poles MUTCD Compliant
- Solar Powered, no AC power required
- 24/7 Operation, but active and passive activation methods are available
- Perimeter LEDs draw attention to the sign face

Flashing LEDs get noticed day and night. TAPCO’s brilliant innovation of enhancing traffic signs with LEDs (Light-Emitting Diodes) makes crosswalks safer, reduces accidents and saves lives! Day-Viz™ (Daylight Visible) BlinkerSigns feature an array of incredibly bright LEDs that flash in unison, once per second, commanding the attention of drivers day and night.

Day-Viz® Management System (patent pending)

| Battery               | Nickel Metal Hydride (NiHM)- 14,000mAh |
| Flash Pattern         | MUTCD Compliant |
| LED Type              | High Power Luxeon- 1 watt |
| LED Life Expectancy   | 100,000 hours |

Warranty

3 Years

Smart Activation Options

24/7 continuous LED flash

Push-button

Wireless bollard

Pedestrian presence detector

Optional BlinkerBeam® Wireless Communication

Systems can be activated and controlled with BlinkerBeam® self-powered wireless transmitters and receivers. These compact controllers activate systems wirelessly within a 1000 ft. range line of site (longer distances available with external antennas). BlinkerBeam® can be activated and controlled from a remote location, allowing for immediate implementation of warning, emergency and evacuation systems. Electric grid independence provides activation during power outages and remote locations.

Optional Push Button Activation

Activated with less than 2 lbs. of force. Provides two-tone audible confirmation as well as visual confirmation. Meets ADA, MUTCD and TAC requirements, and housing meets NEMA specifications. Remote mounting available. Audible navigation units are available.

Optional Wireless Bollard Activation

Pedestrians and bicyclists can passively trigger flashing BlinkerSign® LED signs, RRFB, BlinkerBeacon™ LED Beacons, in-pavement LEDs and other ITS devices. Actuators are housed in anodized aluminum cabinets that can be secured to concrete or asphalt. Battery operated: no grid wiring required.

Optional Pedestrian Presence Detector

Active infrared and microwave technologies work together to provide precise presence and accurate motion detection. Mountable between 8’ and 16’. Impervious to light, sun rain and snow. Housing is rated NEMA-4.
